MATIAS AGUILERA
Full Stack Developer

+1 year of experience as a Salesforce developer and freelance experience as a Full Stack Developer. Focused on teamwork and the excellent implementation of best practices. Always among the top performers in my team.

MOST RECENT WORK EXPERIENCE

Salesforce & Vlocity Developer at LABSxd

July 2022 – Present [Mendoza, Argentina] [Software, B2B/B2C]

RESPONSABILITIES

- Implementation of multiple client APIs for dynamic development.
- Working with a great team of developers on telecommunications projects, implementing best practices for successful project development and fast deployment.
- Direct relationship with the project architects to improve my work.

KEY ACCOMPLISHMENTS

- Improved project deployment by increasing team communication and utilizing best practices, resulting in a 10% increase in efficiency. Additionally, implemented detailed documentation for each development process.
- Enhanced teamwork by encouraging the adoption of pair and group programming, resulting in more efficient and accelerated development.

Javascript Mentor at CoderHouse

April 2022 – Present [Mendoza, Argentina] [Educación, IT]

RESPONSABILITIES

- Continuous support for students, guiding them in their constant language learning journey.
- Projects correction, attendance tracking in classes, and resolution of student's inquiries.

KEY ACCOMPLISHMENTS

- I received incredible evaluations from my students, achieving a satisfaction rating of 98.71%.
- Thanks to the implementation of weekly meetings with the team, we improved class delivery and support to the students.
- Over my mentorship, I have guided +340 students and delivered +9 courses.
